

Quotation for Intelligent Parking Light and System

一、Basics (Fast caculation: All parking lots/2.5 = Number of Lights)								
Num	Name	Type	Unit	Amount	Price	Sum	Description	Picture
1	Intelligent Parking Light	CJD-1	set	1	US\$52.05	US\$52.05	Wireless: BLE sig Mesh; Comm Range: 20 meters (Space) Volt: 110~250V; Power: ≤20W; Mount: hanging wire or bar to mount over car lane Sensor: 6 meters invisible laser ranger Lot signal: red/green/yellow; This price does not include with system software service, also without certification fee for export countries.	
2	Wireless IoT Control Gateway	BTGW01	set	1	US\$205.48	US\$205.48	Wireless: BLE sig Mesh(IoT), Wi-Fi(Configuration); Communication: RJ45 Ethnet; Capacity: 50 lights; This device need to build a control Box as container, which includes: IoT Gateway, 4G Router(with RJ45), Timer controller, and Antennas.	
3	Parking System Cloud Software	DigitalParking	set	1	US\$4,109.59	US\$4,109.59	This cloud system is worked as IoT server for gateways and parking lights, which can accomdate max 2000 lights and almost 6000 parking lots. It can give configuration and calculation for parking areas and provide e-map service and Wechat small applet service for parking.	
4	Map Service Package	DigitalParking	packa ge	1	US\$684.93	US\$684.93	Each package include a e-map(within 5,000 square meters), if parking area is larger than 5000 square meters, one more package is needed, and so on. For mutiple layers of parking area, equal numbers of map are needed to cope with parking structure.Need parking system cloud service support.	
5	Parking Map Monitor	DigitalParking	set	1	US\$630.17	US\$630.17	The Parking Map Monitor (32-inch screen) can display the remaining parking lots of the entire site and the distribution of parking lots in map form. This screen can only be supported after purchasing map service package first. The typical configuration is a wall-mounted box. If you need to customize different styles, the price is need to negotiate.	
6	Installation Service		set	1	US\$10.00	US\$10.00	Mount light and wiring, this service only support in China domesticly.	
7	Configuratoion Service		set	1	US\$20.00	US\$20.00	Adjust sensors and configuration in software on site. This service only support in China domesticly.	
Total(without Tax)						US\$0.00		
Total(with Tax)						US\$0.00	Hardware 13%, Software 6%, Labor work 9%, this is for China Domesticly.	

Notes:

1. This quoted price is EXW price, does not include logistics fee,
2. This quoted price use US\$;
3. This quoted price is subject to the final interpretation and modification rights of Digital Parking Technology (Dongguan) Co., Ltd.
4. Hardwares are guaranteed for 1 years. The software systems are all in the cloud platform mode.
